Michael L. Parson

GOVERNOR
STATE OF MISSOURI

January 15, 2020

TO THE GENERAL ASSEMBLY AND THE PEOPLE OF MISSOURI:

Over the past year, our administration has worked hard to make a positive difference for the people of Missouri. From workforce development and infrastructure to better government, we've had several wins worth celebrating and have shown what major progress we can make by working together. Our investments are paying off, and we will continue to build on that momentum this year.

This year's budget makes key investments aimed at building stronger communities, improving education and workforce development, revitalizing our infrastructure, and making government more accountable. These investments will provide individuals with more opportunities, strengthen public safety, and improve the health and well-being of Missourians.

Ranging from early education to post-secondary opportunities, our investments in education and workforce development will help provide more Missourians with the knowledge and skills to succeed, and our infrastructure investments will continue to revitalize Missouri's vast transportation system. The budget also reflects our continued commitment to making state government more efficient and accountable by investing in our workforce, incentivizing better performance, and changing how we work to better serve Missourians.

As Missouri's financial health has always been of utmost importance to our administration, we have budgeted for all of these investments while once again leaving over \$100 million on the bottom line.

A budget is about priorities, and our administration is confident these are the right priorities to continue moving Missouri forward. We look forward to working together again in 2020.

Sincerely,

A handwritten signature in blue ink, reading "Michael L. Parson".

Michael L. Parson
Governor

GOVERNOR
STATE OF MISSOURI

January 15, 2020

TO THE GENERAL ASSEMBLY AND THE PEOPLE OF MISSOURI:

Over the past year, our administration has worked hard to make a positive difference for the people of Missouri. From workforce development and infrastructure to better government, we've had several wins worth celebrating and have shown what major progress we can make by working together. Our investments are paying off, and we will continue to build on that momentum this year.

This year's budget makes key investments aimed at building stronger communities, improving education and workforce development, revitalizing our infrastructure, and making government more accountable. These investments will provide individuals with more opportunities, strengthen public safety, and improve the health and well-being of Missourians.

Ranging from early education to post-secondary opportunities, our investments in education and workforce development will help provide more Missourians with the knowledge and skills to succeed, and our infrastructure investments will continue to revitalize Missouri's vast transportation system. The budget also reflects our continued commitment to making state government more efficient and accountable by investing in our workforce, incentivizing better performance, and changing how we work to better serve Missourians.

As Missouri's financial health has always been of utmost importance to our administration, we have budgeted for all of these investments while once again leaving over \$100 million on the bottom line.

A budget is about priorities, and our administration is confident these are the right priorities to continue moving Missouri forward. We look forward to working together again in 2020.

Stronger Communities

Missouri's success starts and ends with the people and communities we serve. To make real change, we must continue to invest in issues that provide individuals with more opportunities, strengthen public safety, and improve the health and well-being of Missourians. Governor Parson's budget calls for numerous investments in safety and health – both issues that will build stronger communities and broaden the path to success that we can achieve.

Public Safety

In 2019, Governor Parson committed Highway Patrol Troopers and Department of Public Safety personnel and resources to numerous federal task forces focused on apprehending dangerous fugitives, stopping gang activity, seizing illegal guns and drugs, and preventing human trafficking. These task forces are a collaboration of local, state, and federal law enforcement agencies that work in the most dangerous areas of the state.

Governor Parson also deployed Highway Patrol Troopers to designated areas of highway in the St. Louis area. These troopers are working to improve the public safety of Missouri citizens.

In addition, in March, Governor Parson signed Executive Order 19-04 creating the School Safety Task Force, and in October, signed Executive Order 19-18 to address the youth vaping epidemic in Missouri.

Safety

School Safety Grant

\$1M

Awarding the U.S. Department of Justice STOP School Violence Program grant for the prevention and reduction of school violence by creating a school safety academy to train school safety coordinators and develop a school safety coordinator certification program.

Witness Protection Fund

\$1M

Allowing local police chiefs, county sheriffs, other law enforcement agencies, and prosecutors access to funds that will help protect crime victims and witnesses during the investigatory stages of a case.

Sexual Assault Kit Backlog Reduction

\$1M

Streamlining funds to eliminate the Highway Patrol's backlog of 601 sexual assault kits and expected FY 2020 backlog growth. A recent Attorney General's Office survey revealed over 5,000 untested kits across Missouri law enforcement agencies.

County Reimbursements

\$22M

Reimbursing certain costs which counties and St. Louis City incur during the prosecution and incarceration of defendants sentenced to imprisonment in the Department of Corrections, transporting prisoners from county jails to the reception and diagnostic centers, and transporting extradited offenders back to Missouri.

A STORY OF Success

Flood Recovery

Missouri was inundated by record-level flooding this year, devastating businesses, farms, homes, and communities across the state.

To help establish a path forward and refocus the state's flood control priorities, Governor Parson signed Executive Order 19-14 in July creating the Flood Recovery Advisory Working Group.

Governor Parson also came together with the Governors of Kansas, Nebraska, and Iowa to discuss flood control and identify regional solutions. As a group, they met with the U.S. Army Corps of Engineers three times to discuss what needs to be done differently to be better prepared for the future.

The Governors also recently signed a four-state agreement to cooperate on issues relating to flood control and the U.S. Army Corps of Engineers.

Additional Troopers for St. Louis Special Operational Periods

\$626,732 and 4 FTE

Committing four additional Highway Patrol Troopers to support the St. Louis Special Operational Periods.

Missouri Law Enforcement Assistance Program (MOLEAP)

\$400,000

Adding \$400,000 in funds to acquire and maintain assets for the State Emergency Management Agency's (SEMA) Missouri Disaster Medical Assistance Team and Missouri Mortuary Operations Response Team. The teams are capable of setting up a state-of-the-art emergency room setting in a disaster location, including medical personnel.

Hazard Mitigation Assistance

Workforce & Education

A workforce with the knowledge and skills to fill the jobs of tomorrow is critical to Missouri's path forward. We have made major progress on this issue over the past year, and we must continue to take action, improve education, and provide more options for high-demand job training. From early childhood education to post-secondary opportunities, Governor Parson's budget makes substantial investments aimed at giving more Missourians the education and training necessary to meet the demands of the future.

Infrastructure

Situated at the crossroads of America, Missouri's infrastructure system is a lifeline for transportation across the nation. Maintaining our state's roads, bridges, ports, and waterways is critical to ensuring we have the framework for success going forward, and while outstanding progress was made last year, there is still more to be done. Governor Parson's budget reflects his continued commitment to revitalizing our infrastructure, calling for key investments in transportation as well as water resources, levee rehabilitation, and rural broadband.

Transportation Cost-Share

\$50M

Continuing the cost-share program, which provides financial assistance to public and private applicants for public road and bridge projects. The program matches up to 50 percent of the construction contract costs for selected projects. A STORY OF Success

The Rocheport Bridge Funding

The Missouri River Bridge at Rocheport carries 12.5M vehicles per year, including 3.6M trucks. It is at the heart of national and regional freight distribution and is a linchpin to the mobility needs of Missourians. Each year, more than 100M tons of freight, worth more than \$154B, crosses the bridge.

The Rocheport Bridge was built in 1960 and has long needed replacement. Before receiving a federal Infrastructure for Rebuilding America (INFRA) grant to build a new bridge, available funds would have only allowed for a short-term rehabilitation of the structure. The current four-lane structure will continue to be used while a new bridge that can accommodate six lanes in the future will be built alongside the current location.

Building a new I-70 bridge at Rocheport will provide reliable mobility to commuters, travelers, and freight carriers for the next 100 years.

A STORY OF *Success*

Improving Our Infrastructure

In July, Missouri received an \$81.2M Infrastructure for Rebuilding America (INFRA) grant from the U.S. Department of Transportation to build a new I-70 Missouri River Bridge at Rocheport.

Receipt of the grant triggered \$301M in state bonding, authorized by the General Assembly during the 2019 legislative session, to repair or replace another 215 bridges across the state. The Missouri Department of Transportation recently issued the first series of bonds at a true interest cost of 1.25 percent.

In addition to the bonding plan, the Missouri legislature included \$50M in general revenue in the FY 2020 state budget to repair or replace approximately 45 bridges throughout the state. Another \$48M in general revenue approved by the General Assembly will fund 19 cost-share projects under the newly created Governor's Cost Share Program that will have an economic impact of approximately \$321M.

In all, the bold infrastructure proposals put forward this year have netted \$1B in transportation projects for the state.

「Government Reform」

As public servants, it is our responsibility in state government to provide reliable and responsive service to the people of Missouri. Building on last year's historic progress, Governor Parson and his Cabinet team remain committed to making state government more efficient and accountable by investing in our workforce, incentivizing better performance, improving budget discipline, and changing how we work to better serve Missourians.

JEFFERSON CITY CORRECTIONAL CENTER

Government Reorganization

On August 28, 2019, the most significant reorganization of state government in decades went into effect. The result was a complete overhaul of the Department of Economic Development's strategy, taking it from the largest, least focused economic development agency in the Midwest to one of the most laser-focused on supporting businesses and communities. The restructuring is part of the comprehensive effort to improve the efficiency and effectiveness of state government for the citizens of Missouri.

The reorganization enabled activities vital to the public interest to join agencies where their alignment was deeper and more strategic:

- The Division of Workforce Development and the Missouri Economic Research and Information Center moved to the newly named Department of Higher Education and Workforce Development (formerly the Department of Higher Education) to establish a single state resource for all postsecondary education options.
- The Division of Energy moved to the Department of Natural Resources.
- The Office of Public Counsel and the Public Service Commission moved to the newly named Department of Commerce and Insurance (formerly the Department of Insurance, Financial Institutions, and Professional Registration).
- The Missouri Arts Council moved to the Office of the Lieutenant Governor.

Within the Department of Economic Development, six regional teams were established across the state, with individuals working and living in the communities they serve. A whole division dedicated to assisting businesses with hiring and training workers was also created, along with a new division focused on continually evaluating the state's economic development strategy.

Investing in Our Workforce

\$26.2M

Providing a pay increase for state employees to keep pace with Missouri's labor market and to improve recruitment and retention.

Above & Beyond Performance Incentives

\$5.1M

Funding performance incentives for the top 10 percent of state employees in 15 departments to motivate "above and beyond" performance, promote continuous improvement, and improve accountability. Incentives of up to 5 percent will be capped at \$2,500 maximum per qualifying employee.

DHSS Mobile Assessment App

\$550,750

Equipping Department of Health and Senior Services staff with tablets enabled with a modern touchscreen application for conducting Home and Community Based Services initial assessments and annual reassessments to replace the existing cumbersome, inefficient paper-based process. This investment is estimated to save 38,000 hours of staff time.

Advanced Customer Service Technology

\$5M

Procuring the specialized expertise to develop the master plan, identify the base information technology architecture, and then improve customer service and increase efficiency in multiple agencies by application of advanced technology.

A STORY OF Success

Consolidating a State Prison & Reinvesting In Our Team

In his January 2019 State of the State Address, Governor Parson announced a plan to consolidate the state's two Cameron prisons. This consolidation not only improved staffing levels but also provided over \$20M in annual savings that were then reinvested to improve retention of Department of Corrections staff.

By the end of summer 2019, the consolidation of Crossroads Correctional Center with Western Missouri Correctional Center was complete, and the pay plan had been signed into law as part of the state's budget bill.

The pay plan provides the largest pay increase in the department's history without employee layoffs or additional offender releases, while the facility consolidation improves staffing levels statewide to help ensure safety.

“
When I returned to Missouri from serving in the
military, I said I would never leave this state.
Missouri will always be home. God bless Missouri
and all its citizens!

THE MISSOURI BUDGET

Fiscal Year 2021

REVIEW OF FISCAL YEAR 2019 REVENUE

Net general revenue collections increased in Fiscal Year 2019 by 1.0 percent over the previous year. With the U.S. economy continuing to expand, moderate revenue growth is expected over the next eighteen months. Revenues are estimated to grow by 2.4 percent in Fiscal Year 2020 with growth slowing to 1.9 percent in Fiscal Year 2021.

THE ECONOMIC OUTLOOK

U.S. Economic Position

The national economy grew in Calendar Year 2019, with growth slowing as the year progressed. The unemployment rate declined and employment growth has continued. Housing starts in 2019 remained on pace with starts during 2018, but below the peak seen during 2017. In the last half of 2019, housing sales had their best run since 2007. Inflation growth remained low, despite strong wage growth and robust consumer spending.

Through November, average employment increased 1.5 percent. The U.S. unemployment rate decreased to 3.5 percent in November, which is the lowest rate since 1969. The U.S. unemployment rate has now been below 4 percent for nearly two years.

Personal income continued to improve at a moderate pace. Consumer confidence and spending remained strong through November. Corporate profits saw a one-time boost as companies repatriated income; profits are expected to temperate as repatriation begins to wind down. Despite a volatile year, the stock market continued its record growth. Growth in the median selling price for new homes declined during 2019 and remains below the peak price in 2017. The inventory of homes ended the year at slightly above a five-month supply.

The outlook over the next two years shows a slight deceleration through 2020 and then steady growth through 2021. As the economy remains at full employment, wage growth will likely remain strong fueling continued strong growth in consumer spending. Further, reduced oil and energy prices will continue to leave more disposable income in consumers' pockets and hold costs down for businesses.

After four rate increases in 2018, the Federal Reserve cut interest rates twice in the last half of 2019. Expectations are that the Federal Reserve will remain patient in 2020 before continuing with rate increases in 2021. The Federal Reserve still needs to move cautiously as they continue to unwind a balance sheet that is inflated after the historic quantitative easing program.

Economic Projections

Increase by Calendar Year			
	<u>2019</u>	<u>2020</u>	<u>2021</u>
<u>US</u>			
Real GDP	2.3%	1.9%	2.1%
Employment	1.6%	1.0%	0.4%
Personal Income	4.8%	3.9%	4.1%
Consumer Expenditures	3.4%	3.2%	2.8%
Consumer Prices	1.6%	2.0%	2.2%
<u>Missouri</u>			
Employment	1.1%	1.0%	0.3%
Personal Income	4.3%	3.5%	3.6%

In addition, there are other risks to this outlook. Geopolitical conflicts in the Middle East could have a powerful impact on oil prices. Uncertainty in national policy and the renegotiation of international trade agreements may dampen consumer confidence and could further weaken demand for U.S. exports. However, economic growth could exceed expectations if business investment accelerates, hiring continues to accelerate at an elevated pace, and wage growth improves faster than expected.

Missouri Economic Position

Missouri's economy improved in 2019. According to payroll data in December, employment has increased. Through the first eleven months, employment improved 1.3 percent compared to 2018. Unemployment claims remain below pre-recession levels. Both personal income and consumer spending had strong growth. Missouri's unemployment rate held steady, remaining at 3.1 percent in November, lower than the national average.

Missouri's economy is expected to have moderate growth in 2020 with growth slowing through 2021. Job growth will continue over the next eighteen months, but at slower rates as the economy is already at or near full employment. This should provide a further boost to wages and consumer spending.

REVENUE PROJECTIONS FOR FISCAL YEARS 2019 AND 2020

Revenue forecasting is challenging under the best of circumstances and is even more difficult when there is significant uncertainty around national tax and economic policy.

Moderate revenue growth is expected for Fiscal Year 2020. The revised revenue estimate assumes growth of 2.4 percent, which reflects strong growth in sales taxes and moderate growth in income taxes. Growth in individual income taxes is expected to slow in the remainder of Fiscal Year 2020 given the federal tax reform and subsequent withholding tax changes and the second implementation of state income tax cuts

passed in 2014. Tax credit redemptions will continue to equal a large portion of net revenue, approaching the record level reached in Fiscal Year 2012. The revised estimate of 2.4 percent reflects a downward adjustment from the number on which the Fiscal Year 2020 budget is based.

Continued but slowing employment, wage, and spending growth will restrain general revenue collections in Fiscal Year 2021. Governor Parson's Fiscal Year 2021 Budget is based on a forecast of revenue growth of 1.9 percent.

REVENUE LIMITATION AMENDMENT

Article X of the Missouri Constitution establishes a revenue and spending limit on state government. The limit is 5.6 percent of Missouri personal income, based on the relationship between personal income and total state revenues when the limit was established and approved by voters in November 1980. Calculations made pursuant to Article X of the Missouri Constitution show that total state revenues for Fiscal Year 2018 were below the total state revenue limit by \$3.8 billion.

The Office of Administration projects that total state revenues will not exceed the total state revenue limit in Fiscal Years 2020 or 2021. These preliminary calculations are subject to change as actual state revenue collections become known and as the federal government revises its estimates of Missouri personal income. These projections could change if legislation is approved to increase taxes without a vote of the people. Pursuant to Article X of the Missouri Constitution, revenue approved by the voters is not subject to the revenue and spending limit.

In addition, Article X, Section 18(e) of the Missouri Constitution states the General Assembly shall not increase taxes or fees in any fiscal year, without voter approval, that in total produce net new annual revenues greater than \$50 million, adjusted annually by the percentage change in the personal income of Missouri for the second previous year, or one percent of total state revenues for the second fiscal year prior to the General Assembly's action, whichever is less.

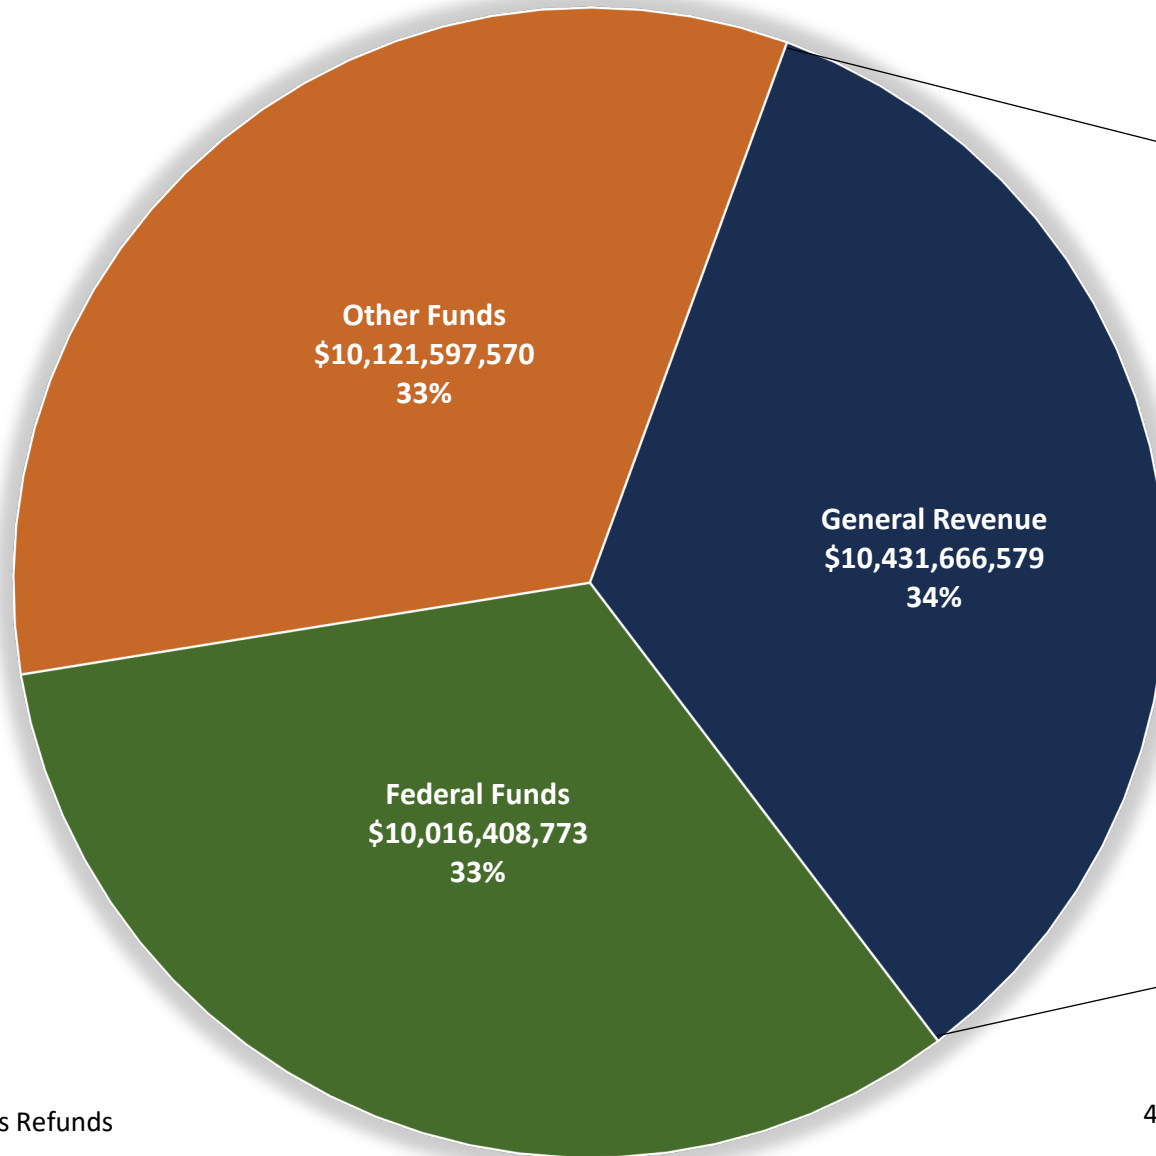

"Net new annual revenues" is defined as the net increase in annual revenues produced by the total of all tax or fee increases by the General Assembly in a fiscal year, less refunds and less all contemporaneously occurring tax or fee reductions in that same fiscal year.

For Fiscal Year 2019, these calculations were \$128.1 million for the personal income amount and \$105.0 million for the one percent of total state revenues amount. Legislative actions in the 2019 session resulted in a decrease of \$62.8 million in state revenues when the provisions are fully implemented.

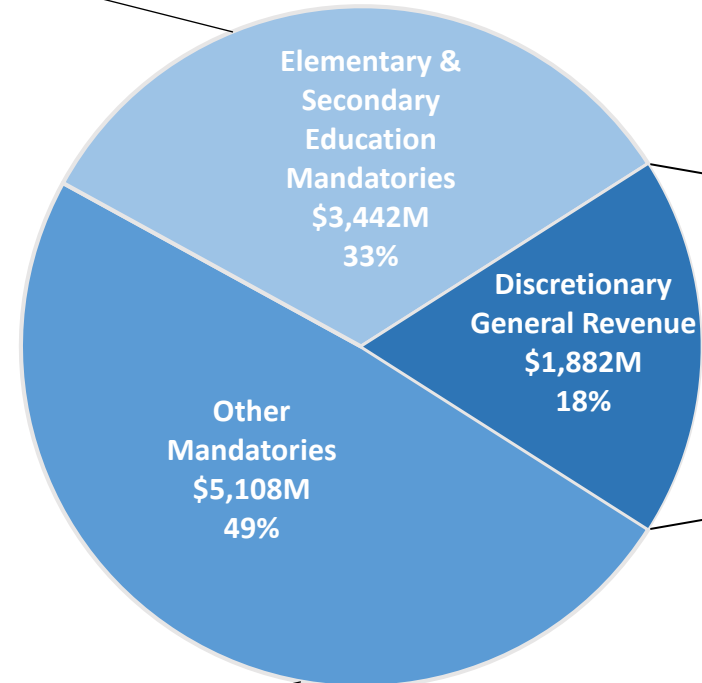

For Fiscal Year 2020, the calculations are \$135.7 million for the personal income amount and \$110.1 million for the one percent of total state revenues amount.

Moody's Investors Service, Standard and Poor's Corporation, and Fitch Ratings have consistently awarded the State of Missouri's bond issues the highest rating: "Triple A". Missouri is one of only 13 states with this rating from all three rating organizations. Voter-approved state constitutional provisions allow for specific general obligation bond issuances. Current general obligation bonds serve three purposes:

Fourth State Building Bonds: In August 1994, Missouri voters approved a \$250 million fourth state building bond issuance to provide essential prison capacity, new juvenile offender residential beds, and significant new higher education construction and renovation.

Water Pollution Control Bonds: Missouri voters approved several water pollution control bond issuances totaling \$725 million. Water pollution control bond proceeds help local governments construct wastewater and stormwater control facilities and improve public drinking water systems. These infrastructure improvements support local economic development, protect Missouri waterways from pollution, and help ensure safe drinking water supplies.

Stormwater Control Bonds: In November 1998, Missouri voters approved stormwater control bond issuances of \$200 million for stormwater control plans, studies, and projects.

ADMINISTRATION OF PUBLIC DEBT

The Board of Fund Commissioners administer the state's general obligation bonded indebtedness. The following members comprise the board pursuant to Section 33.300, RSMo: Governor, Lieutenant Governor, Attorney General, State Treasurer, and Commissioner of Administration. Selling and processing the state's general obligation bonds results in administrative costs. The board directs the payment of state debt principal and interest. Moody's Investors Service, Standard and Poor's Corporation, and Fitch Ratings rate the State of Missouri general obligation bonds as "Triple A". Additionally, the Board of Fund Commissioners must repay the United States Treasury excess interest earnings (arbitrage rebate) on water pollution control bonds, stormwater control bonds, and fourth state building bonds.

Fiscal Year 2021 Governor's Recommendations

- \$15,000 for the administration of public debt.

FOURTH STATE BUILDING BONDS DEBT SERVICE

Under Article III, Section 37, Missouri Constitution, Missouri voters authorized \$250 million in fourth state building bonds for state facilities and higher education institutions capital improvement projects. The General Assembly authorized bonds on a cash-as-needed basis to meet scheduled construction timetables. The Office of Administration has issued all \$250 million in voter-approved bonds. The Office of Administration transfers general revenue to the Fourth State Building Bond and Interest Fund one year in advance of its required payment of principal, interest, and fees.

Fiscal Year 2021 Governor's Recommendations

- \$4,157,025 for the transfer of general revenue for debt service on currently outstanding fourth state building bonds.

A multitude of programs and funding sources are used to ensure all Missouri children receive a quality education. The bulk of state aid is distributed to districts via the foundation formula. The foundation formula distributes state aid to Missouri schools based on a per-student adequacy target. State funds are distributed to school districts based on the adequacy target times the number of students, minus the funding provided through local property taxes collected in 2004 and other taxes. The formula provides additional funding for children struggling with the English language, financial constraints, and special needs. In addition, the formula uses a regional dollar value modifier to address cost of living differences throughout the state.

In addition to the State's General Revenue Fund, revenues from The Fair Share Fund, County Foreign Insurance Tax, Lottery Proceeds Fund, Gaming Proceeds for Education Fund, and the State School Moneys Fund are distributed via the foundation formula.

- The Fair Share Fund revenues are generated from tax receipts from four cents per cigarette pack.
- County Foreign Insurance Tax revenues are generated from the receipts of a two percent, per annum tax levied on the direct premiums of insurance companies not based in Missouri but doing business in Missouri. One-half of the net receipts of the County Foreign Insurance Tax from the previous year are distributed to school districts.
- Lottery Proceeds Fund revenues are generated from Missouri State Lottery revenue.
- Gaming Proceeds for Education Fund revenues are generated from a tax on riverboat gaming adjusted gross receipts, which are distributed to school districts through the Classroom Trust Fund as a component of the foundation formula.
- State School Moneys Fund receives tax receipts from nine cents per cigarette pack.

School District Trust Fund revenues are generated from Proposition C, which collects a one percent sales tax for elementary and secondary education.

The Missouri Course Access and Virtual School Program provides opportunities to earn credit in courses that have teacher shortages.

The Department of Revenue was established in 1945 by the Missouri Constitution to serve as the central collection agency for all state revenue. The primary duties of the Department are to collect taxes, title and register motor vehicles, and license drivers. The Department of Revenue consists of the following divisions:

The **Taxation Division** administers Missouri's tax laws. It processes tax returns and applications, conducts audits, collects taxes owed but not paid, answers questions from taxpayers, and distributes funds collected to state and local taxing jurisdictions. This division has five bureaus: Business Tax, Income Tax, Processing, Collections and Tax Assistance, and Field Compliance.

The **Motor Vehicle and Driver Licensing Division** administers Missouri's laws that relate to titling and registration of motor vehicles, trailers, all-terrain vehicles, manufactured homes, and marine craft, as well as licensing drivers. This division consists of three bureaus: Motor Vehicle, Driver License, and License Offices.

The **General Counsel's Office** ensures the Department's compliance with law and internal policies, advises the director and divisions on legal matters relative to the Department, investigates incidents related to regulatory functions, and represents the Department in courts and administrative tribunals. The division consists of four bureaus: General Counsel's Office, Criminal Tax Investigation, Internal Audit and Compliance, and Compliance and Investigation.

The **Administration Division** provides administrative support to all other areas of the Department. This division includes three bureaus: Human Resources and Total Rewards, Financial Services, and General Services.

The Director's Office is also part of the Administration Division. The Director's Office includes the director, chief operating officer, key administrative staff, the Communications Office and the Legislative Office.

The State Tax Commission and Lottery Commission are administered separately.

- The **State Tax Commission** is the agency responsible for ensuring that Missouri property tax assessments are fair, uniform, and equitable throughout the entire State. The Commission has supervisory authority over all assessment officials in the State, monitors the level and quality of assessment programs, and takes corrective action of inequitable assessments.

The core functions of the Lottery are: a) recruit and license Lottery retailers; b) create, market and distribute Lottery products; c) collect revenues from retailers; d) pay Lottery prizes and retailer commissions; e) ensure the security and integrity of Lottery operations and games; and f) transfer profits to the Lottery Proceeds Fund for appropriation.

Fiscal Year 2021 Governor's Recommendations

Continue funding at the current level.

Missouri Department of Transportation

The Missouri Department of Transportation (MoDOT) is responsible for maintaining 33,838 miles of highway and 10,384 bridges. MoDOT also works to improve airports, river ports, freight development, railroads, public transit systems and pedestrian and bicycle travel.

The department is governed by the Missouri Highways and Transportation Commission, a six-member bipartisan board. Commission members are appointed by the governor for a six-year term and are confirmed by the Missouri Senate. The Commission appoints a director who is responsible for daily operations. The deputy director/chief engineer is in charge of MoDOT's road and bridge design, construction and maintenance activities. Support offices include financial services, legal, internal audits, human resources, external civil rights, communications and government relations.

A district engineer administers the department's work within seven geographical districts: Northwest, Northeast, Kansas City, Central, St. Louis, Southwest and Southeast.

Bridge Division produces structural designs and detailed plans for state highway bridges, including cost estimates and site-specific job provisions. The division also oversees the inspection of all state, city and county bridges and provides weight limits for all bridges.

Design prepares roadway plans and advertises projects for bids. Included in plan preparation are determinations of state and/or federal funding for projects; ground surveys and aerial photography; public involvement meetings; consideration of social, environmental and economic factors; and detailed plan design. The division develops specifications and cost estimates for highway projects prior to advertising for bids.

Construction and Materials administers contracts and performs material testing to ensure projects are of high quality and completed on time and within budget. Pavement selection and geotechnical information are provided for the design of roads and bridges. The division also performs research on products used in construction.

Transportation Planning is responsible for long-range planning, data administration, systems analysis and programming. The division also develops and tracks the five-year Statewide Transportation Improvement Program, the department's highway and bridge construction program. The division also works to improve MoDOT's efficiency through performance management.

Highway Safety and Traffic provides statewide coordination of traffic incident management activities, work zone management, traveler information programs and policy to support signing, striping, traffic signal operations, traffic lighting and roadway access programs. The division also works with safety advocates to develop strategies to prevent traffic fatalities.

Maintenance is responsible for maintaining state highways and bridges. Responsibilities include preservation, upkeep, operation and restoration of roadways, bridges, signs and traffic control equipment.

Motor Carrier Services helps commercial motor carriers get the information, credentials and permits they need to conduct business in Missouri. The division also enforces safety regulations.

Multimodal Operations is responsible for administering a number of state and federal programs that fund and support aviation, railroads, transit and waterways.

Funding: Missouri receives transportation revenue from the federal government from the state's share of the nation's 18.4-cent per gallon tax on gasoline and 24.4-cent per gallon tax on diesel fuel. It also includes various highway user fees and other grants. The largest source of state revenue is from the state's 17-cent per gallon fuel tax. MoDOT also receives a 9-cent per gallon tax on aviation fuel and a share of vehicle and driver licensing fees, as well as sales and use taxes on motor vehicle purchases and leases. Fuel tax, license fees and motor vehicle sales tax revenue may only be used on the state's roads and bridges, per the Missouri Constitution.

MISSOURI Department of Agriculture

ABOUT the Missouri Department of Agriculture

The [Missouri Department of Agriculture](http://MissouriDepartmentofAgriculture.com), located in Jefferson City, is dedicated to the promotion and protection of the state's agriculture industry. With more than 95,000 farms located on more than 27 million acres of farmland, the state's Department of Agriculture works to connect farmers with consumers.

The Department of Agriculture houses five divisions including Agriculture Business Development, Animal Health, Grain Inspection & Warehousing, Plant Industries and Weights, Measures & Consumer Protection. These divisions work each day to promote and protect the backbone of the state's economy.

DIVISIONS

Agriculture Business Development

The Agriculture Business Development Division helps create opportunities for success for Missouri's farmers and agribusinesses both domestically and internationally. The division's staff help facilitate growth in Missouri's agriculture-based businesses by providing business counseling, information and training on a sector-by-sector basis. Areas of specialization include capitalization, business planning, marketing, industry development, product and brand development.

Animal Health

The health of Missouri's livestock is enviable among states. Our stringent animal health regulations and rigorous disease testing help keep Missouri free from costly and threatening livestock diseases. In addition to animal welfare and food safety responsibilities, the Animal Health Division, under the direction of the state veterinarian, is responsible for controlling, eradicating and testing for livestock disease in Missouri. This is accomplished through testing, vaccinations and regulatory programs involving cattle, swine, horses, poultry, exotic animals, sheep, goats and small animals as provided under the Diseased Animal Law.

Weights, Measures & Consumer Protection

The Weights, Measures and Consumer Protection Division tests and approves all commercial weighing and measuring devices. The division promotes uniformity in weights and measures laws, regulations, and standards to achieve equity between buyers and sellers in the marketplace and thereby enhance consumer confidence, enable Missouri businesses to compete fairly at home and abroad, and strengthen the state and U.S. economies. The division's programs are operated in accordance with national and international standards. The division works in conjunction with the National Institute of Standards and Technology and is a member of the National Conference on Weights and Measures, ASTM International, and the National Fire Protection Association.

Grain Inspection & Warehousing

The Grain Inspection & Warehousing division operates grain inspection labs in St. Joseph, Marshall and New Madrid which provide official grain inspection services under designation from USDA. The division's purpose is to protect the interest of grain producers, merchandisers, warehousemen, processors and consumers by providing inspection, auditing, mediation and collection services to the grain and commodity industries.

Plant Industries

The Plant Industries Division's work is often carried out behind the scenes, well out of the public eye. Yet, the division's services are vital to Missouri's agriculture producers and consumers. The division works to prevent the spread of harmful insects and plant diseases; registers pesticides; licenses pesticide applicators; assures label accuracy and quality of commercial feed and seed; inspects fresh fruits and vegetables to assure quality and grade; and facilitates the industrial hemp program.

Through control, containment, and elimination of diseases and diseased animals, the division enables Missouri's livestock and poultry to remain eligible for interstate and international export marketing while helping to ensure public health. Diagnostic laboratories are maintained in Jefferson City and Springfield. The division also works closely with USDA-Veterinary Services and receives significant federal funding as a result of this relationship. To ensure the health and well-being of companion animals sold in Missouri, the division's Animal Care Program also licenses and inspects animal shelters, dog pounds, boarding kennels, commercial kennels, contract kennels, and pet shops. ENVIRONMENTAL QUALITY

Water Protection Program – The Water Protection Program (WPP) promotes safe drinking water, protects the quality of lakes, streams and groundwater, and provides financial assistance to water and wastewater treatment utilities. WPP staff issues permits, provides compliance assistance, drafts standards for clean and safe water, oversees and conducts monitoring, identifies impaired waters, and drafts plans to correct those impairments. The program trains and certifies operators at water supply and wastewater treatment plants. WPP staff administers the federal Clean Water and Drinking Water State Revolving Fund programs, which provides grants and low-interest loans to Missouri communities for drinking water supply, wastewater treatment, and stormwater management infrastructure.

Soil and Water Conservation – The Soil and Water Conservation Program (SWCP) promotes the long-term productivity of Missouri's soil and helps protect water resources. SWCP staff provides guidance to local soil and water conservation districts and administers conservation programs funded by one-half of the constitutionally authorized 1/10th of one percent dedicated parks, soils, and water sales tax. Program funding supports: (1) cost share assistance for agricultural landowners to implement approved soil and water conservation practices; (2) grants to local districts for operational expenses; (3) water quality monitoring of conservation practices; (4) grants for research on soil and water conservation issues; and (5) federal grants to control nonpoint source pollution.

Air Pollution Control Program – The Air Pollution Control Program (APCP) supports the maintenance and improvement of the state's air quality to protect public health. Operating under the Clean Air Act's State Implementation Plans and Rules, the APCP reviews and issues facility construction and operating permits. The program coordinates collection of ambient air quality and emission inventory data to establish air quality benchmarks and determine attainment with national standards. In conjunction with the Department of Public Safety and the Department of Revenue, the program administers the vehicle emission inspection program in the St. Louis region.

Waste Management Program – The Waste Management Program (WMP) promotes the safe and proper handling and disposal of hazardous and solid wastes. WMP staff issues permits for the transportation, treatment, storage, and disposal of hazardous and solid wastes, and the recovery of recyclable materials. The program promotes waste minimization, reuse, and recycling through education, beneficial use approvals, and grants. The program oversees and administers grants to Solid Waste Management Districts to support waste diversion to preserve limited landfill space. Staff work with owners of illegal solid waste dumps to accomplish cleanups.

Environmental Remediation Program – The Environmental Remediation Program (ERP) oversees cleanup of contamination to land and groundwater from hazardous substance and petroleum releases. ERP staff works with responsible parties and owners to develop risk-based cleanup goals and oversee site investigation and remediation activities. Sites include federal properties, industrial facilities, petroleum storage tank sites, mining sites, and others. The program implements long-term stewardship measures at sites to protect against exposure from contamination left in place. ERP also implements the underground storage tank regulatory program to prevent future releases.

DEPARTMENT OF NATURAL RESOURCES ENVIRONMENTAL PROGRAMS

Regional Offices – Regional Office and Central Field Operation activities support the implementation of the department’s environmental programs throughout Missouri. Staff performs field inspections, provides compliance and technical assistance to regulated entities, responds to environmental emergencies for non-hazardous substances (e.g., fish kills), issues permits, and investigates reports of environmental concerns from the public.

Environmental Services Program – The Environmental Services Program supports department programs by providing accurate scientific data for their work. Staff performs field work, conducts monitoring, collects samples, and provides laboratory testing for environmental pollutants. The Environmental Emergency Response Section maintains a 24-hour hotline for environmental emergencies and maintains field response capabilities to assist in the field to mitigate and remediate hazardous substance releases.

- (\$241,901) core reduction for one-time expenditures.

ENVIRONMENTAL RESTORATION

The department conducts natural resource damage assessments where unpermitted releases have damaged natural resources. These assessments evaluate the extent of the damage done, means to mitigate the damage, and how to compensate the public for the damage. The department works with responsible parties to either participate in the restoration or negotiate a monetary settlement, which is then used to complete restoration.

The Missouri Geological Survey (MGS) includes the Geological Survey Program, Land Reclamation Program, Water Resources Center, and Dam and Reservoir Safety Program. The Geological Survey Program investigates the state's geology, providing geologic and hydrologic information and expertise to aid economic development, infrastructure considerations, and environmental decision-making regarding site remediation, contaminant migration, subsurface investigations, and geologic hazards. Staff oversee the proper construction of all wells, including water, oil, gas, exploration, heat pumps, and monitoring. The division also determines the character and availability of the state's energy and mineral resources. Division management represents the state through the Association of American State Geologists and the Central U.S. Earthquake Consortium.

The Land Reclamation Program provides technical support for the Missouri Mining Commission. The commission regulates the surface mining of coal and other mineral commodities (such as lead, barite, tar sands, clay, limestone, sand, and gravel). Staff regulatory duties include developing regulations, permitting, inspection, complaint investigation, bonding, and enforcement. Staff reclamation duties include human health and environmental hazard assessment, reclamation plan designs, contracting, budgeting, public relations, landowner education, construction oversight, and maintenance of reclaimed abandoned mine lands and bond forfeiture mine lands until responsibility release is approved by the commission.

To meet Missouri's comprehensive water needs, Water Resources Center hydrologists, geologists, and engineers investigate and monitor surface water and groundwater resource characteristics, availability, and use. Program responsibilities include (1) operating a statewide groundwater monitoring network with real-time water quantity data; (2) collecting and analyzing surface-water flow data for reaction to flood and drought emergencies; (3) providing guidance, data, and technical expertise in the preservation and development of sustainable regional water supplies throughout Missouri; and (4) defending the state's vital water interests in the Missouri River, the Mississippi River, and other interstate water resources before federal and interstate water resource management authorities.

The Dam and Reservoir Safety Program administers the provisions of the Missouri Dam and Reservoir Safety law. The program provides public safety of downstream residents against dam failure as well as protecting the investment and purpose of the reservoir. The program regulates non-federal, non-agricultural dams 35 feet high and higher through inspections and issuance of registration, safety, and construction permits. The program performs emergency response to dams in distress and provides engineering evaluation of conditions during natural disasters to protect life and property.

Missouri's Division of State Parks manages the many recreational, cultural, and historical resources of the Missouri state parks system. The division also administers programs to promote outdoor recreation statewide.

Missouri State Parks operates and/or maintains 91 state parks and historic sites, as well as the trails of Roger Pryor Pioneer Backcountry. The system is divided into three regions, with each of the region headquarters reporting to the Central Office in Jefferson City. Administrative, maintenance, and service personnel manage the lands and improvements, provide recreational and educational programs for visitors, and provide necessary law enforcement. Funding, provided by one-half of the constitutionally authorized one-tenth of one percent parks, soils, and water sales tax, has been used for projects such as campground remodeling; the addition of shower houses and restrooms; paving of roads within campgrounds; restoration of landscapes; and personnel for maintenance, education, and site interpretation. The parks sales tax provides continued restoration and improvement of the state parks system and allows division staff to better serve the millions of people who visit parks and historic sites each year.

Central Office directs and coordinates the management of the state parks system. Responsibilities include personnel management, budget and policy development, and the evaluation of management procedures and performance. Central Office staff provide logistical support to the individual state park, and operate the central sign shop, central warehouse, and aerial device unit. Staff also identify unique natural areas which may require protection; conduct special studies related to parks operations and development; and prepare site, architectural, and engineering plans and maps.

The division also administers grants that finance outdoor recreation projects.

Missouri Department of Conservation

mdc.mo.gov

Who we are. What we do. Why this matters.

Who We Are

The Missouri Department of Conservation was conceived at the low point in U.S. conservation history when unregulated hunting, fishing and trapping, and the abuse of forests had depleted the state's natural resources. First envisioned by Missouri sportsmen and conservationists, the Department was created by a constitutional amendment in 1936 as the world's first apolitical, science-based conservation agency with exclusive authority over fish, forests, and wildlife.

The four-member Missouri Conservation Commission approves the *Wildlife Code of Missouri*, as well as the Department's policies, long-term strategic planning, budget, and major expenditures. Commission members, who are appointed by the governor, serve staggered, unpaid, six-year terms.

What We Do

The Conservation Department protects and manages the fish, forest, and wildlife resources of the state and provides opportunities for all citizens to use, enjoy, and learn about these resources. Conservation staff sustain and improve the fish, forest, and wildlife resources, manage nearly one million acres of public land with 1,000 conservation areas, work with private landowners and communities to deliver conservation locally, and provide outreach and education through nature centers, schools, and events. Staff also work with dedicated volunteers and partner agencies to ensure a greater conservation reach both in Missouri and across the

nation. Conservation-related concerns can be addressed by MDC staff dedicated to customer service in every county of the state by going to mdc.mo.gov/contact-engage to find your local contacts.

Why This Matters

The health of our natural habitats and the species that live here has an impact on our very quality of life. Whether feeding birds, watching wildlife, hiking, hunting, canoeing or boating, target shooting, fishing, or spending time at a nature center, Missourians are engaged with the outdoors. For more than 80 years, the Conservation Department has worked with Missourians to sustain healthy fish, forests, and wildlife for all to enjoy, and will continue to do so.

Conservation Pays Its Way

The amount of state sales tax revenue generated from fish, forest, and wildlife recreation spending is more than the amount of sales tax revenue received by the Conservation Department from the one-eighth of one percent Conservation Sales Tax. Conservation-related expenditures generate more than \$507 million annually in state and local tax revenue. The Conservation Department's budget represents less than 1 percent of the entire state budget. No state general revenue is received. In Missouri, the total economic impact of fish and wildlife recreation and the forest products industry is more than \$12 billion annually. Expenditures and retail sales from fish and wildlife recreation and forest products support over 99,000 jobs.

A state emergency operations center is maintained to serve as the control center for state government should emergency situations arise.

The Center for Emergency Response and Terrorism (CERT) is responsible for coordinating regional and state preparedness for public health emergencies and natural disasters, including chemical, biological, radiological, and nuclear terrorism. Through partnerships with local public health agencies, healthcare organizations, local government agencies, first responders, and other public and private partners, the center works to assure that systems and programs are in place to protect the health of Missourians during a public health emergency.

Missouri Department of Corrections

[The Missouri Department of Corrections](#) works to improve lives for a safer Missouri. Throughout the state, the department employs Missourians in over 10,800 positions. The department manages and supervises 27,500 people in 20 correctional centers as well as over 62,000 on probation or parole.

Divisions and Units

Office of the Director functions as the central administrative unit of the Missouri Department of Corrections. The office oversees the department's four main divisions as well as special units.

Division of Human Services recruits, trains and supports a professional and diverse workforce and cultivates a workplace in which safety and wellness are practiced as part of the job.

Division of Adult Institutions manages the state's 20 correctional centers using an inmate classification system to enhance safety and security for all staff, offenders and visitors.

Division of Rehabilitative Services develops programs for offenders that address medical and mental health issues, education and workforce development, vocational training, and treatment for substance use disorders.

Division of Probation and Parole supervises felony offenders ordered to probation by the courts or released by the Parole Board from confinement in adult institutions by means of parole or conditional release.

Improving Lives for Safer Communities

The Department of Corrections fosters rehabilitation, treatment, education and job training to equip offenders with the skills they need to contribute to the state's communities, inside and outside the department's walls. About 96 percent of people who enter the prison system ultimately are released into Missouri cities and towns. The Department of Corrections wants to make sure they're good neighbors. The department helps justice-involved Missourians give back. They cultivate restorative justice gardens yielding more than 130 tons of fresh produce annually for donation to community food banks statewide. They help terminally ill peers as hospice volunteers. They produce large-print, audio and Braille materials for visually impaired Missourians and weighted blankets and quilts for people with autism or Alzheimer's. They also have trained nearly 6,000 of the state's shelter dogs for adoption by Missouri families and veterans.

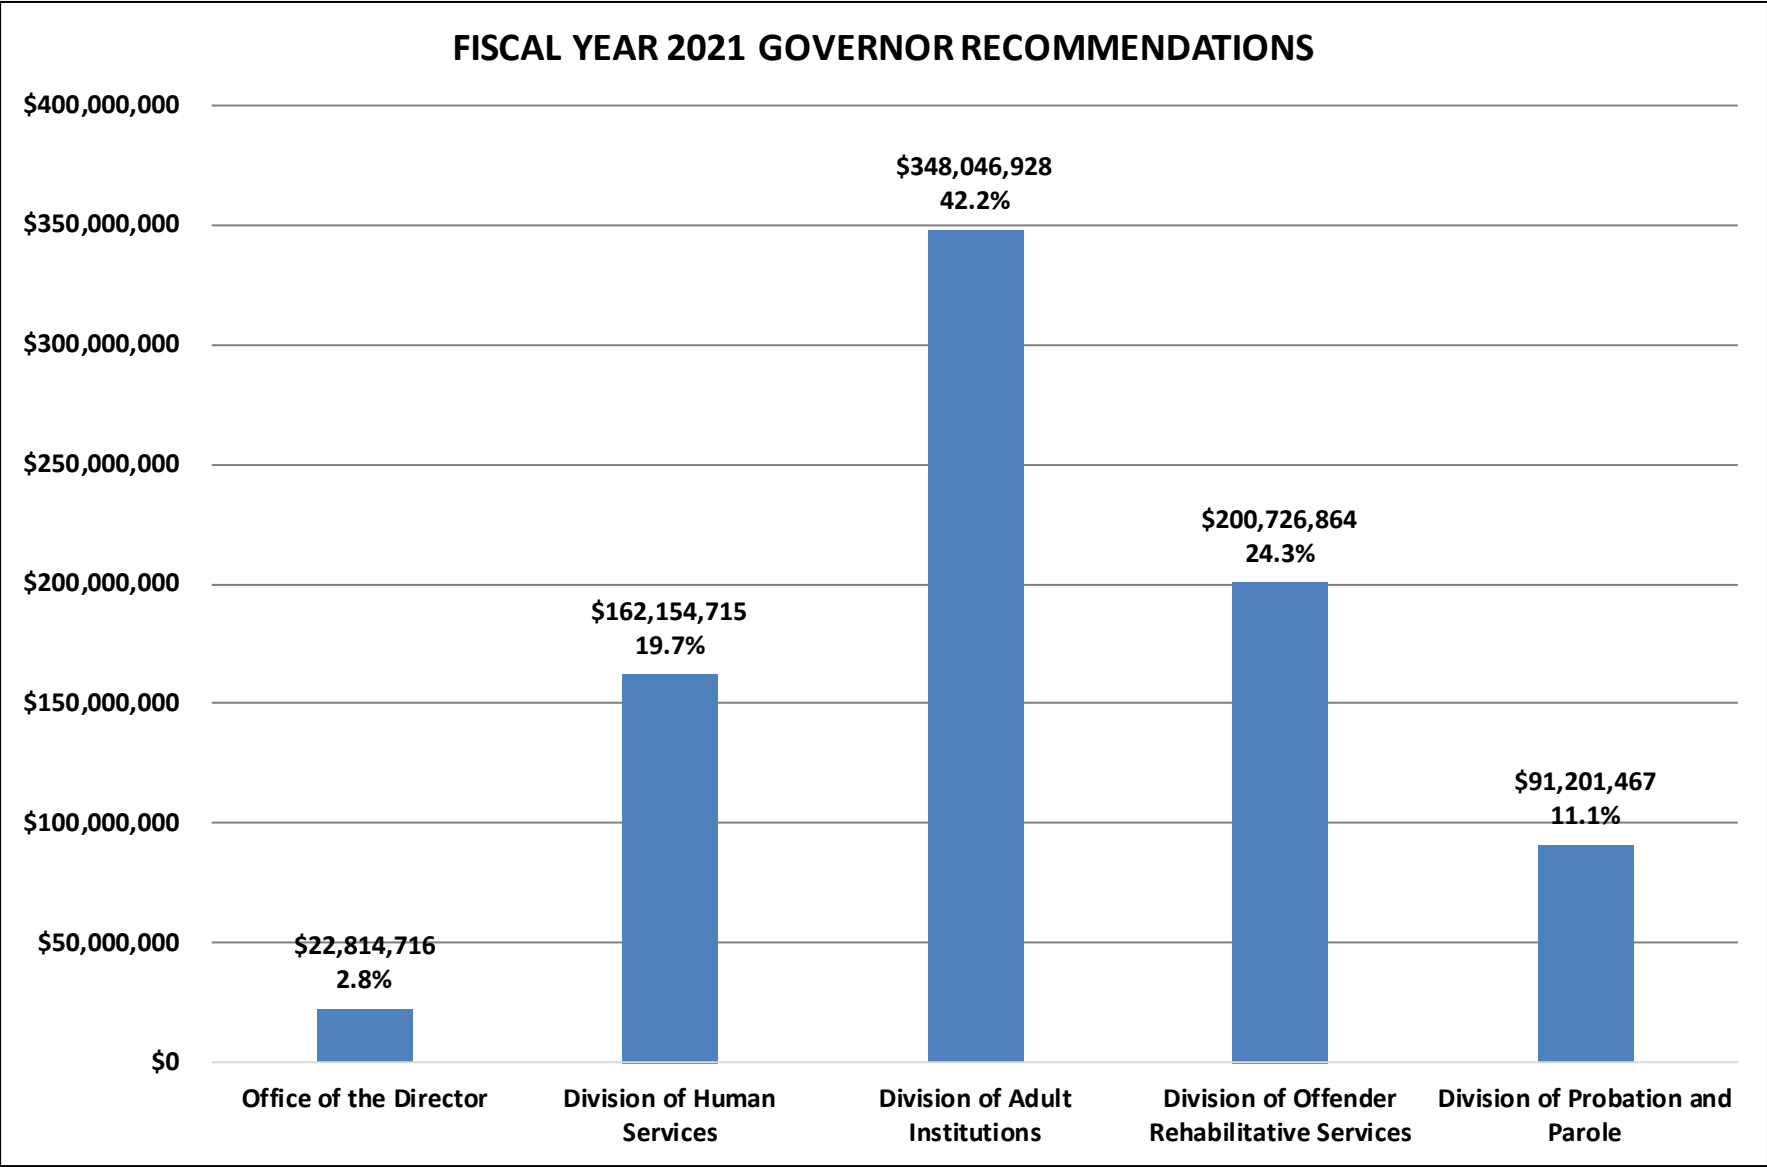

Each month more than 5,000 offenders in Department of Correction's facilities take academic classes. Their pass rates on the high school equivalency test and the National Career Readiness Certificate program exceed 93 percent. Annually, offenders earn more than 1,550 professional certificates. About 1,400 are trained in self-sustaining Missouri Vocational Enterprises factories, and more than 2,000 enroll in career and technical programs.

While supervising Missourians on probation or parole, the Department of Corrections partners with scores of community groups to address employment, housing, health and treatment needs. The department works with more than 160 Missouri employers on job placement, a collaboration that gives businesses the trained and certified workers they need, gives offenders' families income and stability, and gives the people of the state safer communities.

Services are targeted primarily to persons with severe and persistent mental illness, children and youth with serious emotional disturbances, and people with mental illness who have been involved in the criminal justice system. Priorities within these target groups are individuals in crisis, people who are homeless, those recently discharged from inpatient care, individuals with complex medical conditions, and individuals on probation or parole.

Each of Missouri's 25 service areas has a community mental health center that is designated as the division's administrative agent and provides psychiatric services to individuals that meet admission criteria. These administrative agents have historically served as the primary entry and exit points for state-funded mental health services. The agents are responsible for providing services to both adults and children in their designated areas and for providing follow-up services to individuals released from state-operated inpatient hospitals.

Missouri Department of Health and Senior Services

The Department of Health and Senior Services serves the citizens of Missouri by protecting health and keeping the people of Missouri safe.

Many factors influence health status including individual genetics and behaviors; social environment; physical environment; policies and interventions; and access to quality care and services. By providing information and education; effective regulation and oversight; and quality services and surveillance of diseases and conditions, the department seeks to address these factors and fulfill its vision of healthy Missourians for life.

Organization

The department is organized into four divisions: Administration, Community and Public Health, Senior and Disability Services, and Regulation and Licensure, and the department operates the State Public Health Laboratory.

The *Division of Community and Public Health (DCPH)* administers programs that impact the health and safety of Missourians and their communities. It is also the principal unit involved in the surveillance and investigation of the cause, origin, and method of transmission of communicable or infectious diseases and environmentally related medical conditions. DCPH joins other DHSS divisions to collaborate with various partners including local public health agencies, law enforcement, hospitals, and healthcare delivery personnel to execute regional and state planning for the good of citizens served by our public health system, including preparations for emergencies and disasters, whether naturally occurring or as a result of biological, chemical, or nuclear terrorism.

The *Division of Senior and Disability Services* investigates allegations of adult abuse and administers programs designed to maximize independence and safety for adults who are at risk of abuse, neglect, and financial exploitation or have long-term care needs that can be safely met in the community.

The *Division of Regulation and Licensure* ensures the quality of a variety of entities including child care facilities; hospitals and ambulatory surgical centers; home health and hospice providers; long-term care facilities including residential care; intermediate care and skilled nursing facilities; emergency medical services; pharmacies; and persons authorized to prescribe or dispense controlled substances. The Division is also responsible for development and implementation of the medical marijuana program in Missouri.

The *State Public Health Laboratory* is responsible for performing a number of tests including newborn screening tests, rabies tests, and tests to detect communicable and foodborne diseases. The lab also plays an important role in detecting disease outbreaks and is a vital link in quickly identifying a possible attack of bioterrorism or chemical terrorism in our state or nation.

Partners

Creating healthy communities takes partnership with a wide range of public and private partners at the local, state, and national levels. Government, businesses, schools, the health-care industry, and citizens all must work together to ensure that health is a priority and communities have the environment to support good health and quality of life.

Local Public Health Agencies work with policy makers, agencies, and the public to support and strengthen Missouri's public health system. The department's *Center for Local Public Health Services* administers contracts with local public health agencies for implementation of core public health functions such as restaurant inspections, disease detection and investigation, and providing health information to the community.

Area Agencies on Aging (AAAs) develop and administer programs to seniors age 60 and over who are of greatest social or economic need with special emphasis on serving low-income and minority seniors.

Designated as the State Unit on Aging, the division is responsible for assuring that a comprehensive, effective, and coordinated home and community-based long-term care delivery system is available for the elderly and individuals with disabilities. The division informs individuals considering long-term care about their options for home care and provides appropriate referrals; authorizes Medicaid-funded home and community-based services; provides care plan management for home care service recipients; and monitors the quality of services provided to participants. The State Long-Term Care Ombudsman Program advocates for the rights of residents in licensed long-term care facilities and educates volunteers to assist residents in facilities across the state. Funding for the Area Agencies on Aging (AAAs) helps provide seniors the services they need to continue living in their communities, including congregate and home-delivered meals, transportation, legal services, health promotion, and other support services authorized under the Older Americans Act. The division also provides guidance, oversight, and monitoring of the programs and services offered by the AAAs. The [Missouri Department of Social Services](#) was constitutionally established in 1974 to provide appropriate public welfare services to promote, safeguard and protect the social well-being and general welfare of children; to help maintain and strengthen family life; and to provide such public welfare services to aid needy persons who can be so helped to become self-supporting or capable of self-care.

The department has six divisions (Children's Division, Family Support Division, MO HealthNet Division, Division of Youth Services, Division of Finance and Administrative Services, and Division of Legal Services) and four offices (Human Resource Center, Missouri Medicaid Audit and Compliance, State Technical Assistance Team, and Strategic Performance and Innovations) reporting to the Office of the Director.

Mission

We will lead the nation in building the capacity of individuals, families, and communities to secure and sustain healthy, safe, and productive lives.

Office of the Director and Supports

The Division of Finance and Administrative Services and Division of Legal Services support the work of the program divisions. These support functions include budget, contract management, accounts payable, federal grants management, audit and compliance, facilities, legal advice, administrative hearings, and participant/staff investigations. Additional teams working to support the program divisions include the Human Resource Center managing all human resource needs and conducting investigations into claims of civil rights violations; the Missouri Medicaid Audit and Compliance Unit managing Medicaid provider enrollment and provider audits; the State Technical Assistance Team, a law enforcement unit that investigates child abuse, child neglect; and the Strategic Performance and Innovations Unit managing performance improvement, transformation, research/data, and innovation efforts.

Family Support Division

Determines eligibility for and administers many of the needs-based, income tested programs including the Supplemental Nutrition Assistance Program (Food Stamp), Temporary Assistance for Needy Families (cash assistance), Medicaid eligibility, child care subsidy eligibility, Low Income Home Energy Assistance Program, Rehabilitation Services for the Blind, Blind Pension, and the Community Services Block Grant. Families may also apply with the division for child support services, including paternity and/or support order establishment and collection services.

MO HealthNet Division

Administers the state's Medicaid program for low-income Missourians, including the elderly, the disabled, children, parents and pregnant women. While states must meet certain minimum criteria to receive federal Medicaid funding, each state can establish eligibility guidelines, benefit packages, and provider payment rates for its program. Health care provider claims adjudication; care management through contracted health plans and health homes; and establishing edits and prior authorization policies to ensure quality care are focal to the Medicaid program's work.

Children's Division

Delivers services to protect Missouri's children and to provide them a safe and stable environment. A 24-hour hotline is available for the public to report alleged incidents of child abuse and neglect, and these reports are followed up on by state staff, often in coordination with law enforcement. Children in the custody of the state are placed in foster care homes or residential facilities. Children who cannot return home may be adopted or placed in a guardianship home. The division also administers the child care program and other abuse and neglect prevention programs.

Division of Youth Services

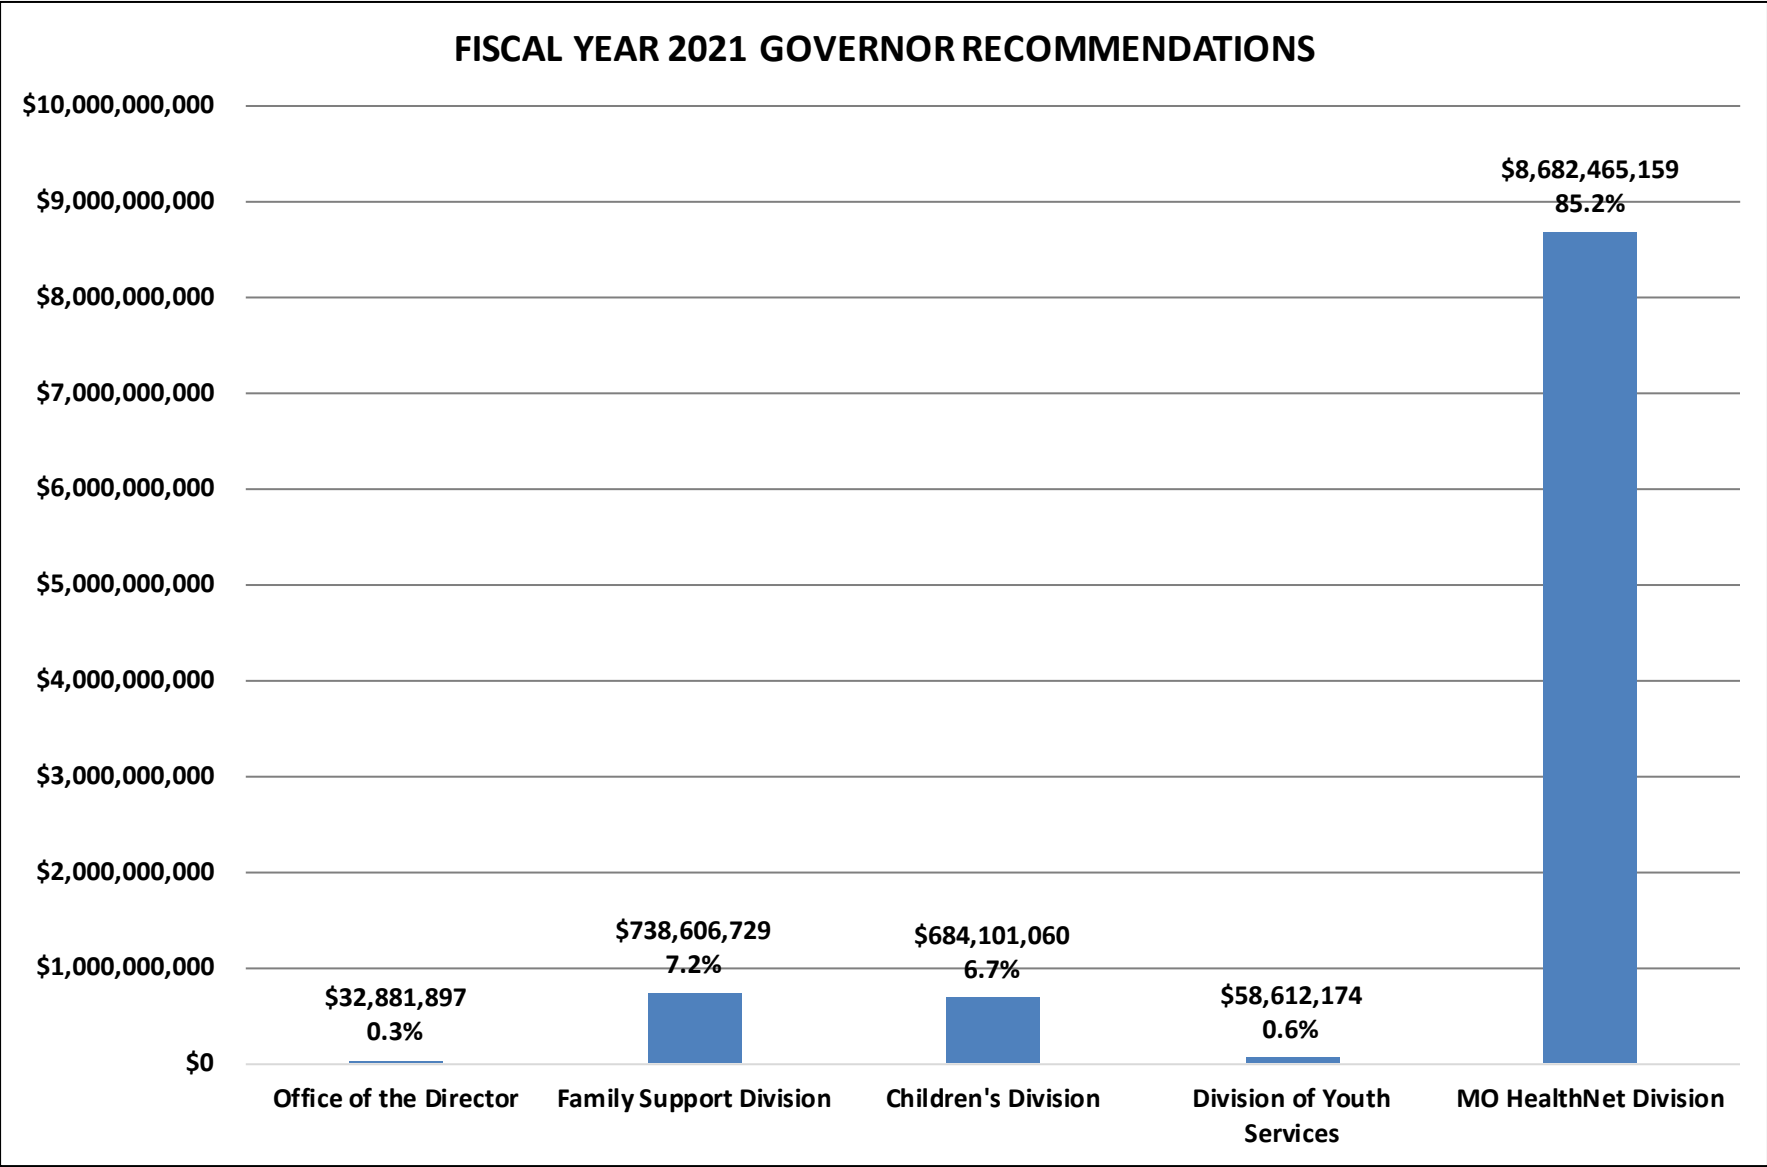

Provides residential treatment, case management, community care, and aftercare to youth committed to the state's custody for various offenses. The division model is an internationally known treatment-focused model, contrary to the typical penal system. The Juvenile Court Diversion Program works with local communities to help prevent juvenile offenses and provide treatment for youth in their own communities.

Administrative Services/Eligibility and Enrollment System – Management, coordination, direction, and general customer support are provided for all Family Support Division programs. The Division Director and staff monitor the efficiency and effectiveness of service and provide policy direction for Income Maintenance, Child Support, and services for the blind and visually impaired. Administrative Services also provides operational services, human resource support, and systems support to Income Maintenance and Child Support field staff. The Division also manages Missouri’s eligibility and enrollment system for income maintenance and Medicaid services.

Income Maintenance Field Staff and Operations – Staff provide intake services, eligibility determinations, information, and referrals to services provided by the Department. Funds in these sections support communication, including the Family Support Division’s call center operation and technology, along with the salaries, general operating expenses, and training for Income Maintenance eligibility specialists, administrative and supervisory staff, and clerical support positions in Family Support offices.

Family Support Staff Training – This funding provides training for all levels of Family Support Division staff, Income Maintenance and Child Support enforcement staff, as well as community stakeholders and partners. Proper training is key to ensuring program compliance and developing effective staff.

DEPARTMENT OF SOCIAL SERVICES

FAMILY SUPPORT DIVISION

Community Partnerships – Twenty organizations partner with the Department and other state agencies to plan, develop, finance, and monitor strategies to achieve specific core result areas. These core result areas include safe and healthy children and families, children ready to enter and succeed in school, youth ready to enter the workforce and become productive citizens, and parents working.

Missouri Mentoring Partnership – This program provides a preventative intervention program, offering work and teen parent mentoring support, as well as training for youth at risk of entering the welfare system or the justice system.

Adolescent Program – Federal dollars are utilized to prevent and reduce the incidence of out-of-wedlock pregnancies and encourage the formation and maintenance of two-parent families.

Food Nutrition and Employment Training Program – This program offers education and outreach to Supplemental Nutrition Assistance Program (SNAP) recipients, as well as employment training. SNAP Outreach provides information on nutrition, physical activity, and food safety, as well as information about food budgeting. SNAP Outreach also helps low-income individuals buy the food they need for good health, such as fruits, vegetables, and whole grains. These services are provided to individuals eligible for SNAP, especially women; people with children in the home; at-risk, pregnant and parenting teens; youth; and seniors. Missouri's employment training program, called SkillUP, provides SNAP participants opportunities to gain skills, training or experience which will improve their employment prospects and assist them with obtaining, retaining, and sustaining employment, reducing their reliance on SNAP benefits.

Healthcare Industry Training and Education (HITE) – This federally funded program targets low-income individuals and provides job training for high-demand careers with self-sustaining wages in the healthcare industry.

Temporary Assistance for Needy Families (TANF)/ Missouri Work Assistance (MWA) – TANF is a program designed to provide temporary assistance/relief to families to promote self-sufficiency so parents do not remain dependent on government payments and children do not grow up in poverty. TANF is designed to provide temporary assistance which, coupled with a myriad of other support services, enables parents to find and retain employment, thereby enabling them to support their families without government assistance. MWA requires certain cash benefit (Temporary Assistance) applicants and recipients to participate in work or training activities for a set number of hours, or they can lose their cash benefit. MWA participants can receive assistance and engage in a variety of activities, including barrier resolution for childcare, transportation, and housing; referrals to community resources for substance abuse treatment, mental health treatment, vocational rehabilitation, blind services, and crisis intervention; employment activities including paid, unpaid, and subsidized employment and internships; education and training activities for soft skills, high school or equivalency, short-term training, job search, apprenticeships, and workplace readiness; and assistance with transportation, training, and work expenses.

Alternatives to Abortion – Alternatives to Abortion provides services and counseling to pregnant women at or below 185 percent of the federal poverty level to help women carry their unborn child to term instead of having an abortion, and assists them with caring for their child or placing their child for adoption if they choose.

Healthy Marriage Promotion – TANF Block Grant funds support fatherhood program initiatives, which encourage paternal involvement in children's lives by connecting fathers with resources to help provide financial assistance to their children, establish legal paternity, and actively participate in caregiving tasks.

Adult Supplementation – The federal government assumed responsibility for Old Age Assistance, Aid to the Permanently and Totally Disabled, and Aid to the Blind programs in January 1974 when it created the Supplemental Security Income (SSI) Program. Recipients who are eligible for SSI, but who receive smaller benefits than their December 1973 payments, receive payments from the state equal to the difference. Recipients who are not eligible for SSI, but who received payments under one of the earlier programs, receive payments from the state equal to the amount they received in December 1973. No new cases can be added to this program, and consequently, the caseload will decline over time.

Supplemental Nursing Care – This state-funded program provides monthly cash benefits to eligible persons in Residential Care Facilities, Assisted Living Facilities, and non-Medicaid certified areas of Intermediate Care Facilities and Skilled Nursing Facilities for use in paying for their care. These grants help low-income seniors and persons with disabilities afford adequate care and remain in a less restrictive environment for long-term care. Persons eligible for these benefits also receive a personal needs monthly allowance.

DEPARTMENT OF SOCIAL SERVICES
FAMILY SUPPORT DIVISION

Blind Pension and Supplemental Aid to the Blind – The Blind Pension program aids the blind who do not qualify for Supplemental Aid to the Blind and who do not own property – excluding homes – worth more than \$29,999.99. Supplemental Aid to the Blind pays benefits to those blind persons who meet certain requirements with reasonable subsistence in accordance with standards developed by the Family Support Division. An earmarked state property tax provides revenue to the Blind Pension Fund.

Community Services Block Grant (CSBG) and Emergency Solutions Grants – CSBG funds are used to address and reduce poverty conditions such as unemployment, inadequate education, malnutrition, inadequate housing, unmet emergency needs, and inadequate available income. Federal statutes require that 90 percent of CSBG funding be passed through to Community Action Agencies and/or other not-for-profit organizations. The federally funded Emergency Solutions Grant Program provides services necessary to help homeless individuals and those at risk of homelessness to quickly regain stability in permanent housing.

Food Distribution – The federally funded Food Distribution Program enables the Family Support Division to provide USDA commodities and administrative funds to not-for-profit food banks to store, ship, and distribute food to eligible individuals and families. The Food Distribution Program also provides commodities for the Summer Food Service Program and other charitable institutions.

Energy Assistance – The Low-Income Home Energy Assistance Program is a federally funded block grant which provides heating assistance payments, winter and summer crisis assistance, and weatherization assistance to low-income households.

Assistance for Victims of Sexual Assault and Emergency Shelter Grants – The Victims of Sexual Assault Program provides support services on a contractual basis to programs throughout the state that serve victims who have been subjected to non-consensual conduct of a sexual nature. The Emergency Shelter Domestic Violence Program provides emergency shelter funding on a contractual basis to domestic violence shelters throughout the state.

Domestic Violence – This program issues contracts to domestic violence shelters and programs throughout the state. These shelters provide residential facilities for domestic violence victims and their children. In addition, shelters provide support services such as hotline calls, professional therapy, legal advocacy, crisis intervention, support groups, community education, and case management.

Blind Administration – This program provides funding for personal services, expense and equipment, and communication costs for both field and central office staff to administer the Services for the Visually Impaired programs. Rehabilitation Services for the Blind administers six programs that provide blind and visually impaired individuals with services they need to obtain or maintain employment and independent living skills commensurate with their goals and abilities. Blind Administration is used to support the implementation of new technologies such as a new case management system for the effective and efficient delivery of services and federal reporting requirements.

Rehabilitation Services for the Blind/Business Enterprises – Professional staff in Rehabilitation Services for the Blind counsel and train blind and visually impaired Missourians, arrange for the purchase of other services, and help the visually impaired find jobs. Services include rehabilitation, vocational rehabilitation, diagnosis and treatment of eye disease, equipment and supplies for blind preschool children, the Public Building Vending Program, and the Readers for the Blind Program.

Child Support Field Staff and Operations – Child Support staff provide services to locate missing parents; establish paternity, medical support, and financial child support obligations; and enforce the collection of support payments for TANF, MO HealthNet, and non-TANF families that apply for child support services. The state retains approximately 35 percent of all assigned child support collected on current and former TANF cases.

Child Support Distributions – Distributions are made to reimburse counties that have signed a cooperative agreement with the Department of Social Services to provide judicial assistance in the establishment and enforcement of Child Support obligations. Child Support collection and prosecution costs incurred by the counties are reimbursed by the federal government at a rate of 66 percent. Distributions are also made to families, and to refund overpayments from federal and state income tax refund intercepts.

DEPARTMENT OF SOCIAL SERVICES

These services include a 24-hour crisis hotline, individual and group counseling, emergency shelter, crisis intervention, court advocacy, emergency transportation, and other services to promote emotional and physical health of victims.

Children's Administration – Children's Division Administrative Services provides management, coordination, and general direction for all Children's Division programs. The Division Director and staff monitor the effectiveness of programs that promote safety, permanency, and well-being for Missouri's children served by the division. Administrative Services provides policy direction, operational services, leadership development, and human resource support to field staff.

CD Field Staff and Operations/Staff Training – This funding covers salaries, expenses, and training for Children's Service workers and support staff to maintain the Children's Division programs in each of the state's 46 judicial circuits. Front-line staff respond to allegations of child abuse or neglect, provide assistance for families in need of services to keep or return children home safely, secure appropriate out-of-home placements for children placed in the Children Division's custody, and locate permanent homes when it is in the best interest of children. Strong emphasis is placed on engaging families through the implementation of a new practice model focused on well-being, safety, and the effects of trauma.

In the spring of 2015, the Children's Division obtained national accreditation by the Council on Accreditation (COA), in accordance with Section 210.113, RSMo. To achieve accreditation, Missouri's child welfare system was reviewed and measured against nationally recognized standards of best practice established by COA. This was the second time the Children's Division achieved accreditation; the first occurred in 2009. The Children's Division is currently in the process of becoming reaccredited a third time.

Children's Treatment Services, Crisis Care, and Prevention Programs – The Children's Treatment Services funding provides a variety of contracted services to child abuse victims and their parents. Specific services include individual and family therapy, respite care, parent aides, intensive family reunification, and other supportive services. Children's Treatment Services funding also provides for intensive, in-home services to help prevent placement of children in foster care and keep children with their families. Prevention programs such as Crisis Care Centers and Home Visiting provide services for families and children to prevent child abuse and neglect and to divert children from the state's custody.

DEPARTMENT OF SOCIAL SERVICES CHILDREN'S DIVISION

Foster Care, Foster Parent Training, Children's Account, Adoption Subsidy, and Subsidized Guardianship – The Foster Care Program provides monthly room and board payments for children in the custody and care of the Children's Division. Types of placements include traditional foster care, relative care, and kinship care. For children with intensive behavioral or medical needs, specialized placements are provided. Payments are made for non-Medicaid medical and dental services, clothing, transportation, foster parent training, respite care, and other needs.

The Children's Account is comprised of funds received from a variety of sources on behalf of children in the division's custody. These monies are used to offset the cost of maintaining the child in foster care and to pay for any special expenses of the child.

The Adoption Subsidy Program and Subsidized Guardianship Program provide financial assistance to parents who adopt or become legal guardians of special needs children in order to move these children from foster care into permanent family arrangements.

Foster Youth Educational Assistance – This funding provides financial assistance for tuition and other fees related to post-secondary education, certificate programs, or career and vocational training to youth in foster care and former foster care youth. The program gives the division the opportunity to provide funding to assist eligible youth interested in pursuing higher education to reach their goals and reduce student loan debt.

Family Resource Centers – The purpose of these centers located in St. Louis, Kansas City, Springfield, Jefferson City, and Southeast Missouri is to prevent adoption disruption and promote family well-being through the provision of supportive services, crisis intervention, respite services, and training on accessing community resources. Centers also provide extreme recruitment services aimed at locating family or kinship connections for children in foster care.

Child Assessment Centers – Child Assessment Centers provide a child friendly setting where children, reported to have been sexually abused, can be interviewed by multi-disciplinary team members and receive a single medical examination.

Residential Treatment, Transitional Living, Independent Living, Title IV-E Court Contracts, and Title IV-E CASA Training – Residential facilities are used when foster family care cannot meet the children's treatment needs. The division contracts with a wide range of residential programs, ranging from small group homes to large, self-contained, resident campuses. Facilities must be licensed by the Children's Division and may also be accredited by one of three nationally recognized accrediting organizations. Independent Living programs assist foster care children, ages 15 to 21, in learning the necessary skills for the transition from foster care to adult independent living in the community. Transitional Living placement programs assist foster care children ages 16 to 21 by placing youth in their communities with support services. Contracts through the Title IV-E program allow the Children's Division to pass through federal funds to be used for reimbursement to juvenile courts for children in the court's custody placed in juvenile court residential facilities and to the statewide Court Appointed Special Advocate (CASA) agency to support training programs.

Foster Care Case Management Contracts – The Children's Division contracts with private agencies to provide foster care/adoption case management services to children who have been removed from their homes and are under the jurisdiction of the juvenile court. These children have been abused and/or neglected or were found to be at serious risk of such. The goal of the foster care case management contracts is to improve safety, stability, and timely permanency for these children. Approximately 25% of children in the custody of the Children's Division are case managed by private contractors.

Child Abuse and Neglect Grant – This grant is used to improve the investigation, prosecution, and judicial handling of cases of child abuse and neglect, particularly child sexual abuse and exploitation in a manner that limits additional trauma to the child victim.

Purchase of Child Care – The child care program supports low-income working families and children receiving protective service child care through the Children's Division. Without child care assistance, many parents could not participate in job training or education, or maintain employment in order to become self-sufficient. Without such assistance, the risk of children being left in inappropriate, unsupervised, or unsafe environments also increases. The Early Childhood Development, Education and Care Fund supports programs to improve the availability of, and access to, quality child care and programs that prepare children to enter school ready to succeed. Because children learn more from the ages of zero to five than during any other developmental period, the availability of quality child care is essential to preparing children for school.

DEPARTMENT OF SOCIAL SERVICES
CHILDREN'S DIVISION

Home Visitation – The Home Visitation Program provides free, voluntary services for families and children to prevent child abuse and neglect and to divert children from the state's custody. This program targets low income families and families with children under the age of age three to ensure that these children have positive early childhood experiences both in and out of the home.

Foster Care Outdoor Program – This funding supports a residential licensed or accredited "Outdoor Learning" program related to the treatment of foster children.

Five regional offices work with central office staff to ensure program efficiency and effectiveness at the local level.

Youth Treatment – Youth treatment includes residential and non-residential services. Vendor Payments – The Medicaid Program is a federal-state partnership to pay for the health care of those who cannot pay for their own care. Federal law sets the minimum services for any state that opts to administer the Medicaid Program. These services include hospital; physician; Early and Periodic Screening, Diagnostic and Treatment; lab and x-ray; skilled nursing home care; home health care; Federally Qualified Health Centers; rural health clinics; and non-emergency transportation. Additional State Plan services include pharmacy and dental benefits. Services (except pharmacy) provided to most children, custodial parents, and pregnant women are delivered through managed care contracts.

In addition to Medicaid State Plan Services, Missouri provides breast and cervical cancer treatment for uninsured women under the age of 65. The State Children's Health Insurance Program (CHIP) covers uninsured children up to 300 percent of the federal poverty level. Families with incomes above 150 percent of the federal poverty level must pay premiums to receive coverage for their children. The Show-Me Healthy Babies program, as part of CHIP, offers services for targeted low-income unborn children from families with household incomes up to 300 percent of the federal poverty level. The Blind Pension Medical Benefits Program covers individuals receiving blind pension benefits who do not meet categorical eligibility criteria for Medicaid.

ADMINISTRATION

Article IV, Section 15 of the Missouri Constitution describes the duties and responsibilities of the State Treasurer. The State Treasurer is responsible for receiving and investing state moneys, posting receipts to the proper funds, and signing warrants drawn according to law. As custodian of those funds, the Treasurer determines the amount of state moneys not needed for current operating expenses and invests those funds in interest-bearing time deposits in Missouri banking institutions or in short-term United States government obligations. The Treasurer is required to give due consideration to the preservation of state funds and the comparative yields available. The Treasurer also must determine whether the general welfare of the state is better served by investing state funds in United States securities or within the Missouri banking system.

The Treasurer also administers the state's unclaimed property law by collecting unclaimed or abandoned funds and property belonging to Missouri citizens and trying to locate the owners.

Fiscal Year 2021 Governor's Recommendations

- \$24,933 other funds for pay plan.
- \$32,813 other funds for the remaining pay periods of the Fiscal Year 2020 approved pay plan.

ISSUING DUPLICATE AND OUTLAWED CHECKS

These functions allow payment of claims against the state in cases where checks are not presented for payment within 12 months of issuance as required by law.

Fiscal Year 2021 Governor's Recommendations

Continue funding at the current level.

ABANDONED FUND ACCOUNT

In accordance with Section 447.543, RSMo, the Abandoned Fund Account has the two-fold purpose of receiving funds that have remained unclaimed for a period of seven years and making the payment of valid claims. Any time the fund exceeds 1/12th of the prior year's disbursements, the Treasurer may, and at least once every year shall, transfer the excess to general revenue. If verified claims for payment should reduce the balance in the account to less than 1/24th of the prior year's disbursements, the Treasurer shall transfer from general revenue an amount sufficient to restore the fund to 1/12th of the prior year's disbursements.

The Supreme Court has exclusive appellate jurisdiction in all cases involving the validity of a treaty or statute of the United States or of a statute or provision of the Missouri Constitution; the construction of the state's revenue laws; the title to any state office; and in all cases where the punishment imposed is death. In addition, the court may transfer cases from the Court of Appeals if the cases involve questions of general interest or importance; the court thinks the existing law should be reexamined; the lower court opinion conflicts with prior opinions; or for other reasons provided by rule of the court. The Court of Appeals also may order a case transferred to the Supreme Court after opinion either by order of the Court of Appeals itself, or by the request of a dissenting court of appeals judge.

The Constitution authorizes the Court to establish Court practice and procedure rules and to temporarily transfer judicial personnel. In addition to its decision-making powers, the Supreme Court supervises all lower state courts (assisted by the Office of State Courts Administrator), licenses all lawyers practicing in Missouri, and disciplines those guilty of Rules of Professional Conduct violations.

The treatment court program uses court authority to identify those offenders for whom costly incarceration is neither necessary nor an efficient allocation of scarce public resources. Based on the circumstance, judges divert defendants to treatment court programs at various stages of the judicial process. Treatment courts provide an additional tool to reduce the number of people entering the court and penal systems. Additionally, treatment programs decrease the negative consequences of drug and alcohol abuse by reducing the number of additional cases filed involving family disputes, abuse and neglect, truancy, property crimes, and crimes of violence.

The Missouri Veterans' Treatment Courts are hybrid drug and mental health courts that use the drug court model to serve veterans struggling with addiction, serious mental illness, and/or co-occurring disorders. These courts use a coordinated response that involves cooperation and collaboration with the U.S. Department of Veterans Affairs healthcare networks, the Veterans' Benefits Administration, volunteer veteran mentors and veterans' family support organizations.

Any circuit may establish a treatment court that combines judicial supervision, drug testing, and treatment of treatment court participants. The Treatment Court Coordinating Commission is composed of eight members: one member selected by the director of the Department of Corrections, one member selected by the director of the Department of Social Services, one member selected by the director of the Department of Mental Health, one member selected by the director of the Department of Public Safety, one member selected by the Office of State Courts Administrator, and three members selected by the Supreme Court. The commission is to evaluate, secure, coordinate, and allocate funding resources to the various treatment courts around the state.
